Infoline installs new IT platform for OETC

MUSCAT Infoline LLC has implemented the System Center Service Manager, Operation Manager and Configuration Manager 2012 for Oman Electricity Transmission Company (OETC), a press release said.

The new management platform will enable OETC to more easily and efficiently manage their IT environments. "Our IT infrastructure is currently managed professionally with Microsoft system centre, as we thought it will add value to our environment, the productivity and work process will be improved and all daily work will be documented and easy to be monitored and control, said Hilal Al Shukri, IT Manager of OETC.
