

MoM honours Infoline for Omanisation efforts

The Ministry of Manpower (MoM) recently held a ceremony to honour leading enterprises for contributing to the employment of nationals in work force.

Infoline LLC, a leading Business Process Outsourcing (BPO) and Information Technology Enabled Services (ITES) provider in the sultanate, was honoured for outstanding achievement in Omanisation in the telecom sector category. Khamis al Balushi, the HR manager of Infoline LLC, received the award and the certificate of excellence from Dr Yahya bin Mahfoudh al Mantheri, chairman of the State Council who presided over the ceremony.

Since inception, Infoline LLC is

complying with His Majesty the Sultan's directive to develop and employ Omani youths. Infoline LLC has put forth sultanate's Omanisation and other nation

building activities at the top of its priorities and policy.

Infoline LLC introduced the concept of third party outsourcing in Oman, thereby generating

considerable employment opportunities for nationals. It has set exemplary standards for the development and training of Omani workforce. Firmly believing that its greatest assets are people, the company spares no effort in ensuring the well-being of its employees by helping them to develop themselves in their personal and professional lives.

In the last nine years, Infoline LLC has trained more than 1,800 nationals who have found gainful employment thereafter. The company's HR practices focus on creating, nurturing and supporting people to meet its ambitious growth plans, through a wide variety of initiatives that cover all stages of employee life cycle.
